

User guide

Stirex cheese slicer

Art no: CH-SL-1

Safety:

- Do not use the product for any other purpose than slicing cheese.
- Please note that the blade is sharp.
- The cheese slicer is only suitable for slicing soft or semi hard cheese.
- The cheese slicer should be kept away from children at all times as it is not suitable for children to use.
- Avoid using the cheese slicer for cutting hard food or other hard things.
- If you should feel uncomfortable or feel pain while using the cheese slicer please stop immediately.

Usage:

Stirex cheese slicer has the same area of usage as normal cheese slicers. Stirex cheese slicer has a handle that is placed in a suitable angle to give the arm, wrist and hand a natural relaxed working position so that the cutting power from the arm is transferred to the centre of the blade with minimal effort. The purpose of the Stirex cheese slicer design is to avoid working with a bent wrist and subsequent excessive strain and pain. The blade, made from stainless steel, is cast in a handle of environmental friendly plastic. Stirex cheese slicer is only suitable for cutting soft cheese.

Maintenance: Machine washable and boil resistant.
Hand wash best for gentle washing.

Technical specification:

| Art no: | Name: | Lenght of blade: | Weight: |
|---------|----------------------|------------------|---------|
| CH-SL-1 | Stirex cheese slicer | 9,5 cm | 98 g |
