Stirex scissors

Art. no: S-300, S-300BM, S-310, S-310BM, S-32, S-32X, S-35, S-35BM, S-35BX, S-36, S-95BX, S-100BX

Safety:

- Do not use the product for any other purpose other than cutting light material.
- Please note that the blades are sharp.
- These scissors should be kept away from children at all times as they are not suitable for children to use. The children's scissors should be used under supervision of an adult.
- Avoid using these scissors for cutting hard materials.
- If you should feel uncomfortable or feel pain while using the scissors please stop immediately.

Usage:

Stirex children's scissors, pocket scissors, kitchen scissors, nail scissors, scissors and fabric scissors all have the same area of usage as normal scissors. All our scissors are light, reliable and comfortable with a self-opening handle which is working in a soft and smooth way and with low spring pressure. Observe that no distal finger control is required. The blades, made from stainless steel, are cast in handles of environmental friendly plastic. All Stirex scissors are only suitable for cutting soft material.

Maintenance: Machine washable and boil resistant.
Hand wash best for gentle washing. The scissors can be sharpened when needed.
